ABOUT

Death-Cast.com

We are sorry to lose you

* THIS
will be
very text +
heavy
and not
pretty

Death-Cast was established in [a year] blablabla
this is some history about Death-Cast as well
as some book info. I don't know it all yet but this
will be a brief synopsis of Death-Cast and "They both
die in the end"

** commonly
used phrases
throughout
the book

Definitions **

- Decker** - Someone who recieved the phone call that they will be dying in 24 hours
- Count Downers** - a website, similar to Instagram & youtube. You can watch videos, see pictures & peoples final days
- Make-a-moment** - A VR experience where Deckers can try extreme things (skydive, shark swim, snowboard) w/out actually doing those things so they stay safe
- Last Friend** - Site that pairs Deckers to deckers (even) so they have someone on their last day. Similar to Bumble friend but for dying people
- Neuro App** - Similar to Last Friend but for people who just want to hook up
