Death-Cast was established in [year] blablabla
this is some history about death cast as well
as some book info. I don't know it all yet but this
will be a brief synopsis of Death-Cast and "They both
die in the end"

Definitions ***

*** common
used phrase
throughout
the book

- Decker** - Someone who recieved the phone call that
they will be dying in 24 hours
- Count Downers** - a website, similar to Instagram & youtube
You can watch vides, see pictures & peoples
final days
- Make-a-moment** - A VR experience where Deckers can try extreme
things (skydive, shark swim, snowboard) w/out actually
doing those things so they stay safe
- Last Friend** - Site that pairs deckers to deckers (RnD) so they
have someone on their last day. Similar to Bumble
friend but for dying people
- Necro App** - Similar to Last Friend but for people who just
want to hook up
